VOLUMES 1—10

1967—1970

NORTH HOLLAND

SCOPE OF THE JOURNAL

The EUROPEAN JOURNAL OF PHARMACOLOGY will publish original articles and notes in English concerning pharmacology, taken in the broadest sense.
Accordingly the journal will cover: general pharmacology and pharmacodynamics; drug kinetics and drug metabolism; toxicology and teratogenicity; animal and human pharmacology; pharmacology of the nervous system, including behavioral pharmacology; pharmacology of the uro-genital, the gastrointestinal and the respiratory tract; pharmacology of the cardiovascular system.
Articles on original methods and techniques in pharmacology will also be considered.
Papers submitted to the journal are only accepted on the understanding that they are subject to editorial revision and that they have not been and will not be published in whole or in part in any other journal.

NOTE TO AUTHORS

The following technical rules should be followed:

1. *Preparation of text*

(a) Manuscripts should be typewritten, double spaced, with wide margins. The original and one carbon copy including two sets of figures and tables should be sent to:

the Editorial Office of the European Journal of Pharmacology,
Rudolf Magnus Institute for Pharmacology, Medical Faculty,
University of Utrecht, Vondellaan 6, Utrecht, The Netherlands

(b) The text should be written in English. Facilities are available for the linguistic correction of manuscripts which are written by authors whose native tongue is not English.
(c) Title page: Full title (not to exceed 85 characters including spaces between words), list of authors, laboratory of origin, running title (not exceeding 50 characters including spaces), mailing address.
(d) Abstracts: An abstract not exceeding 150 words and stating what was done, what was found, and what was concluded should be typed on a separate sheet. It will appear at the beginning of the article. In addition the author may provide a resume of his article, not exceeding 250 words, in French, German or Spanish.
(e) A list of from 3 to 6 index words or short phrases suitable for indexing should be typed at the bottom of the abstract page accompanying the manuscript. These terms will be printed with the paper at the end of the abstract.
(f) Standard nomenclature should be used throughout; unfamiliar or new terms, arbitrary abbreviations, and trade names should be defined when first used. Unnecessary abbreviations and symbols are to be avoided.
(g) Legends or illustrations and footnotes should be typed on separate sheets. double spaced. Footnotes, to be consecutively numbered in superscript throughout the text, should be used as little as possible.
(h) Drugs: Generic names should be used. Trade names may be mentioned in parentheses the first time the name of the drug appears in the text. The form of the drug used should be indicated.
(i) Short Communications: see page 3 of cover.

(continued on page 3 of cover)

SUBSCRIPTIONS

The *subscription price* of a volume of about 400 pages is $ 19.00; DM 66.-; FF 85 per volume, post-free.
Subscriptions should be sent to the publishers, North-Holland Publishing Company, P.O. Box 3489, Amsterdam or to any subscription-agent.
Claims for missing numbers should be made within two months, following the date of publication. The publishers expect to supply missing numbers free only when losses have been sustained in transit and when the reserve stock will permit.
No part of this issue may be reproduced in any form, by print, photoprint, microfilm or any other means without written permission from the publisher. Reprints, photoprints or microfilms are obtainable at cost from the publisher.

2nd class postage paid at New York, N.Y. Published monthly

Library of Congress Catalog Card Number 68-26539

MASTER KEYWORD INDEX
TO VOLUMES 1—10

Abscopal regulation 9 (1970) 31
Absorption 6 (1969) 322
Absorption, metabolism and excretion of drug 6 (1969) 169
Accessory sex glands of male rats 3 (1968) 81
Accumulation in inflammatory tissues 3 (1968) 157
Acetylcarbocholine 4 (1968) 62
Acetylcholine 1 (1967) 71, 407; 3 (1968) 117, 131, 279; 4 (1968) 188; 5 (1968) 49, 161; 6 (1969) 294, 327; 7 (1969) 5, 143, 152, 296; 8 (1969) 177, 204, 331; 9 (1970) 52; 10 (1970) 11
Acetylcholine esterase 2 (1967) 67; 9 (1970) 41
Acetylcholine esterase in erythrocytes 4 (1968) 211
Acetylcholine, intraarterial 8 (1969) 159
Acetylcholine liberation 10 (1970) 57
Acetylcholine output 4 (1968) 254, 258
Acetylcholine potentials 3 (1968) 272
Acetylcholine receptors 5 (1968) 63, 71
Acetylcholine release 6 (1969) 281; 9 (1970) 80
Acetylcholine sensitivity 4 (1968) 62
3-Acetylpyridine effect 1 (1967) 15
Acetylsalicylic acid 6 (1969) 17
Acetylsilicocholine 4 (1968) 62
Acid-base balance 4 (1968) 289
Aconitine 6 (1969) 49

Antikaliuretic effect 10 (1970) 255

Antinicotinic activity *in vitro* 6 (1969) 327
Antiparkinson drugs 9 (1970) 269; 10 (1970) 83
Antiphlogistic activity 2 (1967) 229; 3 (1968) 157
Antipyrine 9 (1970) 99
Antithyroid activity of sulphides 2 (1968) 399
Apomorphine 3 (1968) 163; 6 (1969) 255; 7 (1969) 283
Aprobit (N-hydroxyethylpromethazine) 2 (1968) 321
Aptin 9 (1970) 21
Aqueous phase 4 (1968) 228
Arecaidine esters 1 (1967) 81
Arecaidine-ester, ^{14}C- 5 (1969) 63, 71; 8 (1969) 215
Arneil-Dekanski factor 3 (1968) 93
Arousal, effect of drugs 1 (1967) 295
Arrhythmogenic action 3 (1968) 4
Arsenic 5 (1969) 203
Arterial wall 5 (1969) 299
Asiaticoside, toxicity to skin 1 (1967) 414
Asthma 5 (1969) 203
Asynchrony of recovery of excitability 3 (1968) 15
Ateroid® 6 (1969) 190
Atheromatosis 1 (1967) 254
ATPase 6 (1969) 96
ATPase, liver mitochondria 8 (1969) 385
ATP synthesis 8 (1969) 19
Atria 4 (1968) 198; 5 (1968) 49; 10 (1970) 11
Atrial thrombosis 2 (1967) 131
Atropine 1 (1967) 93; 3 (1968) 117, 303; 4 (1968) 188; 5 (1969) 191; 6 (1969) 294; 7 (1969) 66, 319; 10 (1970) 11
Atropine-like properties of arecaidine derivatives 1 (1967) 81
Atropine resistance 1 (1967) 396
Atropine treatment 6 (1969) 169; 7 (1969) 73
Autonomic blocking agents 1 (1967) 93; 6 (1969) 45
Autonomic nervous system 6 (1969) 129; 8 (1969) 228
Autonomic pharmacology 8 (1969) 127
Autoradiography, total body 2 (1967) 26; 9 (1970) 46
Avian iris neuromuscular junctions 6 (1969) 129
Avian thrombocytes 8 (1969) 200; 10 (1970) 243
Axoplasmic transport 10 (1970) 412

BAL (C dimercaprol) 8 (1969) 253
Barbiturates 7 (1969) 60
Barium chloride activity *in vitro* 6 (1969) 327
Barium^{2+} ions 4 (1968) 62; 8 (1969) 177
Bayer 1470 10 (1970) 230
Behaviour 6 (1969) 83; 7 (1969) 170; 10 (1970) 168
Behavioural excitation 9 (1970) 383
Bemegride 1 (1967) 282; 6 (1969) 152
Benactyzine 3 (1968) 87
Benzocaine 10 (1970) 91
1,3-Benzoxazine derivatives 6 (1969) 327
Benzpyrene 3 (1968) 153
Benzpyrene hydroxylase 10 (1970) 119
Benzydamine 1 (1967) 240; 3 (1968) 157
Beta-adrenergic, see β-Adrenergic
Beta-receptor, see β-Adrenergic receptor or β-Receptor
Bicarbonate reabsorption 10 (1970) 255
Bile flow 9 (1970) 116
Bile formation 4 (1968) 215
Biliary excretion 9 (1970) 116
Biliary excretion of choleretic agents 4 (1968) 215
Biliary excretion of curare-like agents 10 (1970) 283
Biliary excretion of quaternary ammonium compound 4 (1968) 343
Biochemical background of drug tolerance 7 (1969) 66

Biochemical-cellular-morphological explanation 7 (1969) 66
Biogenic amines 4 (1968) 441; 10 (1970) 135
Biogenic amines, release of 4 (1968) 427
Biological assay 4 (1968) 198; 10 (1970) 398
Biological half-life 2 (1968) 405; 7 (1969) 227
Biphasic blockade by tetramethyl-ammonium 2 (1968) 347
Biphasic drug disappearance 10 (1970) 360
Bis-ammonium-bis-cyanohydrins 8 (1969) 127
Bisolvon 1 (1967) 445
Bis Onium esters 2 (1968) 258
Bis-quaternary ammonium compounds 10 (1970) 283
Bird liver supernatant 5 (1968) 100
Biventer cervicis muscle, chick 8 (1969) 204
Body temperature 4 (1968) 18
Body weight increase 1 (1967) 240
BOL 148 (bromolysergide) 10 (1970) 135, 215
Bladder fistula 2 (1968) 301
Blastula stage 1 (1967) 160
Blockade of membrane pump 7 (1969) 56
Blood flow 3 (1968) 275
Blood glucose 2 (1967) 35; 2 (1968) 403; 7 (1969) 89, 180
Blood lactic acid 8 (1969) 310
Blood levels 7 (1969) 328
Blood nicotine 8 (1969) 269
Blood platelets, storage in 7 (1969) 45
Blood pressure 1 (1967) 93, 247; 3 (1968) 186; 5 (1969) 235; 7 (1969) 125, 248; 6 (1969) 1; 10 (1970) 18, 25
Blood pressure of domestic fowl 5 (1968) 119
Blood pressure in conscious and anaesthetized dogs 2 (1967) 83
Blood pressure response 6 (1969) 45; 7 (1969) 14
Blood sugar 4 (1968) 47
Blood vessels 6 (1969) 102
Bradycardia 6 (1969) 193
Bradykinin 1 (1967) 222; 2 (1967) 83; 4 (1968) 175, 6 (1969) 17, 312; 8 (1969) 153
Bradykininogen II 7 (1969) 211
Brain 2 (1967) 193, 202; 6 (1969) 121; 7 (1969) 56; 10 (1970) 64, 139, 189
Brain acetylcholine 4 (1968) 390
Brain amine synthesis 5 (1969) 245
Brain catecholamines 8 (1969) 292; 9 (1970) 183, 333; 10 (1970) 193
Brain catecholamine neurons 5 (1969) 338
Brain dopamine 5 (1969) 245; 9 (1970) 333
Brain 5-hydroxytryptamine 4 (1968) 169, 371; 7 (1969) 176; 8 (1969) 149; 10 (1970) 215
Brain 5-hydroxyindolacetic acid 4 (1968) 371; 7 (1969) 176
Brain iron content 1 (1967) 15
Brain and liver amphetamine 7 (1969) 220
Brain monoamines 10 (1970) 339
Brain noradrenaline 4 (1968) 152, 169; 8 (1969) 149; 9 (1970) 333
Brain noradrenaline turnover 4 (1968) 103
Brain soluble fraction, effect 1 (1967) 347
Brain stimulation and behaviour 7 (1969) 176
Bretylium 1 (1967) 210; 2 (1967) 113; 3 (1968) 74, 89; 4 (1968) 188; 7 (1969) 289; 5 (1969) 204
Bromosergide (BOL 148) 10 (1970) 135; 215
Bromsulphalein 3 (1968) 330
Bronchoconstriction 2 (1967) 214; 4 (1968) 91; 6 (1969) 49
Bronchodilator reflex 2 (1967) 214
BSP 3 (1968) 330
Buscopan absorption 8 (1969) 108
Butyrophenones, ^{3}H- 3 (1968) 347

Caffeine 5 (1969) 286; 10 (1970) 64
Calciphylatic challengers 8 (1969) 354
Calcium 1 (1967) 99; 2 (1968) 276; 8 (1969) 337; 9 (1970) 52, 10 (1970) 91
Calcium binding 10 (1970) 328
Calcium deficient rat uterus 6 (1969) 143
Calcium ion 2 (1967) 119; 4 (1968) 152; 7 (1969) 231
Canine adrenal tissue *in vitro* 1 (1967) 26
Capsaicin (decenoic acid vanillylamide) 1 (1967) 86
Carbachol 6 (1969) 241; 5 (1968) 49; 8 (1969) 204
Carbohydrate metabolism 9 (1970) 257
Carbon tetrachloride 2 (1968) 276; 3 (1968) 330; 5 (1969) 343
